

Colegio Isaac Martin.

S.T.E.A.M.

Project.

Student's name: \_\_\_\_\_.

Group: \_\_\_\_\_.

Developed Project: \_\_\_\_\_.

Prof. Norman García C.

Total: 35 points.

Obtained Points: \_\_\_\_\_.

Percentage: \_\_\_\_\_.

Score: \_\_\_\_\_.

Aspects to evaluate.	5	4	3	2	1
<b>Materials</b>	The student presents all the required materials during the development of the project.	The student forgets some of the materials required to develop the project during one day of the development of the project.	The student forgets some of the materials during two days of the development of the project.	The student does not bring the materials from home but finds some materials to use in the trashcans.	The student does not present any materials to develop the project.
<b>Choice of materials</b>	All the chosen materials are adequate to develop the project.	Most of the chosen materials are adequate to develop the project.	A few of the chosen materials are adequate to develop the project.	Most of the chosen materials are inadequate to develop the project.	All the chosen materials are inadequate to develop the project.
<b>Designing process</b>	The student follows all the steps of the EDP to develop the project.	The student follows most of the steps of the EDP to develop the project.	The student follows some of the steps of the EDP to develop the project.	The student follows a few of the steps of the EDP to develop the project.	The student does not follow any of the steps of the EDP to develop the project.
<b>Oral presentation</b>	The presentation is developed in an excellent way.	The presentation is developed in a very good way.	The presentation is developed in an acceptable way.	The presentation is developed in a poor way.	The presentation is developed in a deficient way.
<b>Quality of the final product</b>	The quality of the final product is excellent.	The quality of the final product is very good.	The quality of the final product is acceptable.	The quality of the final product is poor.	The quality of the final product is deficient.
<b>Group work</b>	Students support and cooperate with the other members of	Students support and cooperate with the other members of the group in a good way.	Students support and cooperate with the other members of the group in a fair way.	Students support and cooperate with the other members of the group in a poor way.	Students never support and cooperate with the other

	the group in an excellent way.				members of the group.
<b>Behaviour</b>	Students present an excellent behaviour during the development of the project.	Students present a good behaviour during the development of the project.	Students present a fair behaviour during the development of the project.	Students present a poor behaviour during the development of the project.	Students present a deficient behaviour during the development of the project.
